

**Created to educate, communicate with, and continually say
"Thank You" to Nurses - "The Unsung Heroes of Healthcare!"**

About Pamela Jane Nye

The next page chronicles my community service, award recognition, professional affiliation, career nursing history, academic teaching, education and publications.

What it doesn't reveal is my growing up in a small Iowa town, ignoring warnings about California earthquakes, driving 3,000 miles with no job waiting, no place to live and just \$1,500 in savings!

Fast forward to today, the end result is being blessed with so many opportunities to achieve, living a good, productive, healthy and comfortable life while, at the same time, achieving all of my make-a-difference career goals -- and then some.

innovative tuition-free continuing nurse education webcasts, advanced nursing education scholarships for working floor nurses, and positive nurse image advocacy.

Simply put, I wanted to use my remaining productive years pursuing the never ending challenge of "making a difference" in other nurses lives. I want to "pay forward" as the saying goes, by helping others to benefit from my diverse nursing experiences. I also want to champion an ongoing public awareness message about nurses as the humble, "unsung heroes of healthcare."

Furthermore, from my Symposiums, seminars, public speaking and publication efforts, my plan is to donate 100% of all audited net revenue for tuition-free nursing education and scholarships.

Lastly, I'm hoping to pioneer some unique, informative approaches to both nurse-related teaching and as well as learning, and have some fun doing it!

If you are someone, or a company who'd consider becoming involved with my annual Operation Scrubs National Nurses Week Education & Nurse Celebration events, start with an email. Tell me who you are, what are you asking or telling me. Better yet, pick up the phone and give me a call at (800) 627-6156, Ext. 801.

Until next time ...

Pamela Jane Nye

Other things not explained are these furry male companions giving me much comfort and inspiration during those early California adjustment years. [Chico & Rasca (left) have since crossed the Rainbow Bridge. Cooper (right) is the new baby, all King Charles Cavaliers] ... I also gave up a wonderful UCLA Stroke Coordinator position to restart my Neuroscience Nursing, Ltd. symposium business ... then create Operation Scrubs, Inc. -- a 501(c)(3) nonprofit/tax-exempt organization providing

... and when I'm not working, I've been turning some of my "bucket list" thoughts into actual experiences:

Zip Lining ... My first Horse Race ... Sky Diving ... Taste of Rattlesnake ...

Fastest lap in Richard Petty's NASCAR at 137 mph ...

Deep sea fishin' (catchin') ...

Big Bad Voodoo Daddy Concert as Presquile Winery guest ...

Pamela Jane Nye, RN, MS, CNS-BC

As CEO/Owner of Neuroscience Nursing, Ltd., and Founder/CEO and Executive Director of Operation Scrubs, Inc., a 501(c)(3) nonprofit organization, I strive to elevate the knowledge of nurses in the area of brain disorders, diseases, and injury; and to provide hospital leadership with consultation and guidance to obtain and maintain stroke certifications at all levels. Considered an expert in my nursing field, I'm also a legal consultant for attorneys, hospitals and routinely volunteer in my community.
